**PROGRAM TITLE:** Certificate Course in Medical Transcription

**OBJECTIVE:**

Medical transcription (MT) is the manual processing of voice reports dictated by physicians and other healthcare professionals. The MT team of a hospital typically receives the voice files with dictation of medical documents from healthcare providers. The then converted into text.

**NEED OF THE COURSE:**

**Steps to Becoming a Medical Transcriptionist**

1. Earn your high school diploma or GED. This is the minimum education requirement for medical transcriptionists.
2. Earn your medical transcriptionist certificate or associate degree. ...
3. Gain practical experience. ...
4. Consider additional education and certifications.

**PROGRAM FEES:** Nil

**PROGRAM DURATION:** 30 hrs

**PROGRAM PUBLICITY:** College Notice / Circular

College will have the following role/s in relation to the Project

1. Provide all content and delivery mechanisms for the said course/s it intends to offer and, any other subsequent offering that it may introduce from time to time
2. Arrange and ensure availability of faculty to conduct face to face interactions as defined for each course, now and in the future.
3. Give Certificate/s to students to successfully complete the course as per the norms.
4. Provide necessary infrastructure and support services for smooth conduct of academic classes at YEES.

**MODULE DESCRIPTION**

Module 1. Abbreviations	5 hrs
Module 2. Anatomy and Physiology.	5hrs
Module 3. Body Dynamics.	5hrs
Module 4. Diagnostic medicine. Medical Instruments and Equipment.	5hrs
Module 5. Medical Specialities and Specialists. Pharmacology.	5hrs
Module 6. Words Dynamics.	5hrs

**Registration –**

We are pleased to invite First year B. Pharm students for registration.

PROGRAM TITLE: Certificate Course in Pharmacovigilance

### Scope

This course is exclusively designed for Pharma students, Medical practitioners and Life science graduates. This course will be helpful to those who have ICSR experience in Pharmacovigilance domain and for those who wants to learn and excel their career in Aggregate reporting.

### Objectives

This Job Role (Pharmacovigilance Aggregate reporting) comes under Niche Skill, which means there is high demand and less resources available in the industry. This is one of the high paying Job Role in Pharmacovigilance/ Pharma domain. PV is the science of collecting, monitoring, researching, assessing and evaluating information from healthcare providers and patients on the adverse effects of medications, biological products, blood products, herbals, vaccines, medical device, traditional and complementary medicines .

### A) Knowledge

Pharmacovigilance is the science and activities relating to the detection, assessment, understanding and prevention of adverse effects or any other medicine/vaccine related problem. All medicines and vaccines undergo rigorous testing for safety and efficacy through clinical trials before they are authorized for use.

### B) Skill

- Observational skills as well as attention to detail.
- Analytical and problem-solving skills.
- Excellent communication skills, both written and verbal.
- IT skills.
- Team working skills.
- Mathematical skills.
- Project management and planning skills.
- Ability to work in a fast-paced environment.

College will have the following role/s in relation to the project

1. Provide all content and delivery mechanisms for the said course/s it intends to offer at YEES and any other subsequent offerings that it may introduce from time to time.
2. Arrange and ensure availability of faculty to conduct face to face interactions as defined for each course, Now and in the future.
3. Give certificate/s to students who successfully complete the course as per norms.

**MODULE DESCRIPTION:**

Module 1 Introduction to Pharmacology, Clinical Trials, and Pharmacovigilance	7hrs
Module 2. Adverse Drug Reactions and Safety Reports	7hrs
Module 3. Methodologies in Pharmacovigilance	8hrs
Module 4. Seriousness & Expectedness & Causality Assessment Criteria	8hrs

**Registration-**

We are pleased to invite Final year B. Pharmacy Students for registration.

### SCHEDULE

Date	Day	Time	Course Content
3-6-2019	1.	1 to 2 pm 5 to 6 pm	Introduction, Definition,
4-6-2019	2.	1 to 2 pm 5 to 6 pm	Pharmacokinetics and Pharmacodynamics
5-6-2019	3.	1 to 2 pm 5 to 6 pm	ADME, Membrane Transport
6-6-2019	4.	1 to 2 pm 5 to 6 pm	Receptors- GPCR, Jack-State, Enzyme Receptor
7-6-2019	5.	1 to 2 pm 5 to 6 pm	Clinical Trials- Phase-I,II,III,IV
8-6-2019	6.	1 to 2 pm 5 to 6 pm	Pharmacovigilance- Methodes
10-6-2019	7.	1 to 2 pm 5 to 6 pm	Advrse Drug Reaction, Types and Reactions
11-6-2019	8.	1 to 2 pm 5 to 6 pm	Safety Reports, Allergy, Drug misuse, Drug Intraction
12-6-2019	9.	1 to 2 pm 5 to 6 pm	Treatment withdrawal, treatment faliture
13-6-2019	10.	1 to 2 pm 5 to 6 pm	Methodologies in pharmacovigilance, spontaneous reports, case series
14-6-2019	11.	1 to 2 pm 5 to 6 pm	Stimulant Reporting, Active Seveillance,
15-6-2019	12.	1 to 2 pm	Comparative Observational studies, Targeted Clinical investigation

### COURSE MANUAL

### CERTIFICATE COURSE

#### Topic

### VALIDATION TECHNIQUE

YEES group of institutes has one of the best pharmacy college in Chandrapur. Also, the group has D. pharm college, Polytechnique college courses in Chandrapur dist and vicinity.

YEES provides right curriculum and innovative teaching methodologies to all its campuses. At YEES there is a series of vibrant education and leadership strategies for gaining unbeatable competitive advantage from countrywide experts for a matchless growth beyond the ordinary.

YEES extra curriculum prepares dynamic students, personally and professionally, to take up future leadership roles in a global setting.

YEES is committed to high quality education. The YEES charter of higher learning clearly states, "Impart high quality education which meets the divers needs of our students and the evolving professional requirements". To achieve this YEES ensures global standard of teaching, supported by extensive research work and a productive learning environment.

#### Vision of College

Bring out best and successful pharmacy professionals to lead the pharmaceutical and health care arena with commitment and competence. It is distinctive features include high Quality Academic Environment and Result Oriented Programs and all Commitment to create centre of Excellence Quality Technique Education.

#### Mission of College

Build a holistic educational institute of repute chasing excellence with commitment and hard work successfully, to create noble character in each talented student to become a winner and the institute in devoted is to the advancement of knowledge and education of students on the areas that contributes to create Educational Environmental Development Skills.

**PROGRAM TITLE:** Certificate Course in Validation Technique

**OBJECTIVE:** Course has been designed for meeting the demand of the grow experts in the fields of analysis, medicinal chemistry, quality control and sta synthesizes molecules and ready market preparation.

**NEED OF THE COURSE:**

There is a growing trend for acquiring even a fractionate knowledge about purity and quality of medicinal moieties. In the recent years, the interest in investigational analysis has increased and even the separation, isolation and purification of impurities in terms of solvents and synthesized products is also been taken seriously by researchers and the commercial users. Expert knowledge of the separation and identification technology, with its scale up is now the new horizon in the pharmaceutical industries.

**PROGRAM FEES:** Nil

**PROGRAM DURATION:** 30 hrs

**PROGRAM PUBLICITY:** College Notice / Circular

College will have the following role/s in relation to the Project

1. Provide all content and delivery mechanisms for the said course/s it intends to offer and, any other subsequent offering that it may introduce from time to time
2. Arrange and ensure availability of faculty to conduct face to face interactions as defined for each course, now and in the future.
3. Give Certificate/s to students to successfully complete the course as per the norms.
4. Provide necessary infrastructure and support services for smooth conduct of academic classes at YEES.

**MODULE DESCRIPTION**

Module 1. Validation: Technique	5hrs
Module 2. Current Scenario: Validation of Analytical Procedures	5hrs
Module 3. Importance of Analytical Method Validation	5hrs
Module 4. ICH guidelines for Analytical Method Validation	5hrs
Module 5. Methodology	5hrs
Module 6. Practical approach to for Analytical Method Validation	5hrs

**Registration –**

We are pleased to invite Third year B. Pharm students for registration.

## SCHEDULE

Date	Day	Time	Course Content
02-01-2019	1.	1 to 2 pm 5 to 6 pm	Introduction to validation technique. Overview, Experiments, Validation Methodes, Opportunities of Validation in Assesing things, Conclusion.
03-01-2019	2.	1 to 2 pm 5 to 6 pm	Overview, Experiments, Validation Methodes.
04-01-2019	3.	1 to 2 pm 5 to 6 pm	Opportunities of Validation in Assesing things, Conclusion. Design and Manufacturing of Product.
05-01-2019	4.	1 to 2 pm 5 to 6 pm	Opteneing determine standard. Regulartor Authoritiues like EMA, and FDA.
07-01-2019	5.	1 to 2 pm 5 to 6 pm	Process validation, Process Design, Process Qualification.
08-01-2019	6.	1 to 2 pm 5 to 6 pm	Importance of validation Methodes. Oppretional Efficiency,
09-01-2019	7.	1 to 2 pm 5 to 6 pm	Accuracy and Specificity of analytical Procedure, Precise, Detection and
10-01-2019	8.	1 to 2 pm 5 to 6 pm	Quantitation limit for estimation of drug component. ICH Guidelines for Analytical method validation .
11-01-2019	9.	1 to 2 pm 5 to 6 pm	Validation of Bioanalytical assay for chemical and biological drugs.
12-01-2019	10.	1 to 2 pm 5 to 6 pm	Metabolites in biological matrieces. Regulatory decisions on sefty and efficacy
14-01-	11.	1 to 2 pm	Methodology- Analytical method,

  
Principal  
Maharashtra Institute of Pharmacy  
(B. Pharm) Betala-Bramhapuri

## Certificate Course in – ETHICS IN CLINICAL RESERCH (MIP-ECR)

YEES group of institutes has one of the best pharmacy college in Chandrapur. Also, the has D. pharm college, Polytechnique college courses in Chandrapur dist and vicinity.

YEES provides right curriculum and innovative teaching methodologies to all its campuses. At YEES there is a series of vibrant education and leadership strategies for gaining unbeatable competitive advantage from countrywide experts for a matchless growth beyond the ordinary.

YEES extra curriculum prepares dynamic students, personally and professionally, to take up future leadership roles in a global setting.

YEES is committed to high quality education. The YEES charter of higher learning clearly states, "Impart high quality education which meets the divers needs of our students and the evolving professional requirements". To achieve this YEES ensures global standard of teaching, supported by extensive research work and a productive learning environment.

### Vision of College

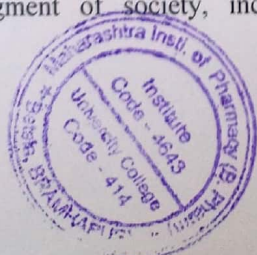

Bring out best and successful pharmacy professionals to lead the pharmaceutical and health care arena with commitment and competence. It is distinctive features include high Quality Academic Environment and Result Oriented Programs and all Commitment to create centre of Excellence Quality Technique Education.

### Mission of College

Build a holistic educational institute of repute chasing excellence with commitment and hard work successfully, to create noble character in each talented student to become a winner and the institute in devoted is to the advancement of knowledge and education of students on the areas that contributes to create Educational Environmental Development Skills.

### Course Information

The generation of scientific knowledge and new treatments for diseases benefits humankind greatly. However, clinical research should not be performed by endangering the lives of study participants. Clinical research must be conducted ethically to protects the rights, safety and well-being of the study participants. Many unethical studies have been conducted in the past on vulnerable segment of society, including prisoners, slaves, and other subjects, without their consent.

**INSTITUTE CODE DTE 4643, UNIVERSITY 414 PCI 3122**

**PROGRAM TITLE:** Certificate Course in Ethics in Clinical Reserch

**Scope** This course is exclusively designed for Pharma students, Medical practitioners and Life science graduates. This course will be helpful to those who have ICSR experience in Pharmacovigilance domain and for those who wants to learn and excel their career in Aggregate reporting.

**Objectives**

Research Ethics is aimed at readers and authors who are interested in ethical issues associated with the design and conduct of research, the regulation of research, the procedures and process of ethical review and issues related to scientific integrity.

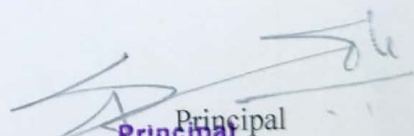

**A) Knowledge**

Esearch in chemical sciences should benefit humankind and improve quality of life, while protecting the environment and preserving it for future generations. Researchers should conduct their work with the highest integrity and transparency, avoid conflicts of interest, and practice collegiality in the best way.

**B) Skill**

Research in chemical sciences should benefit humankind and improve quality of life, while protecting the environment and preserving it for future generations. Researchers should conduct their work with the highest integrity and transparency, avoid conflicts of interest, and practice collegiality in the best way.

Ethics in clinical research is adapted from a Teaching-Learning course and resource package designed and produced by the institute staff for use for students so that their technical skills get increased. Research is a vital ingredient for improved global health and scientifically sound and ethically appropriate research is especially important in resource-poor settings where the need for locally applicable research findings is so grate. Therefore the World Health

**PROGRAM FEES:** Nil

**PROGRAM DURATION:** 30 hrs.

**PROGRAM PUBLICITY:** College Notice/ Circular

- Provide a research ethics course that will assist you in your work as a research ethics committees (REC) member or as a Principal Investigator or Researcher.
- Identify complexities in the application of the research ethics concepts introduced in the course and to practice ethical reasoning in their application. -Provide ready access to reperch ethics guidelines, links to articles, case studies, videos, and other online resources.

**Modules-**

Course Modules Research Ethics Introduction and Course Overview

**Introduction to Research Ethics- 7 hrs**

Module 1: Introduction to Research Ethics

Module 2: Principles and Guidelines

**Ethical Considerations in International Health Research – 13 hrs**

Module 3: Evaluating Risks and Benefits

Module 4: Issues in Study Design

Module 5: Understanding Vulnerability

Module 6: Obligations to Research Participants

Module 7: Engaging with Communities

Module 8: Privacy and Confidentiality

Module 9: Informed Consent

Module 10: Other Ethical Issues

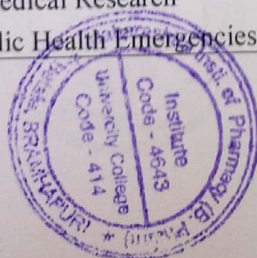

**Special Topics in Research Ethics- 10 hrs**

Module 11: Biobanks and genomics research

Module 12: Including people with disabilities

Module 13: Women in Biomedical Research

Module 14: Research in Public Health Emergencies

## SCHEDULE

Date	Day	Time	Course Content
6-1-2020	1.	1 to 2 pm 5 to 6 pm	Introduction to Reserch Ethics, Definitions, principles of ethics.
7-1-2020	2.	1 to 2 pm 5 to 6 pm	, Intergrity, Competence, Honesty, Privacy, Justice.
8-1-2020	3.	1 to 2 pm 5 to 6 pm	Evaluating Risks and Benefits
9-1-2020	4.	1 to 2 pm 5 to 6 pm	Advantages and risk and Probabilities
10-1-2020	5.	1 to 2 pm 5 to 6 pm	Privacy and Confidentiality, Reserch Ethics, Confidentiality Documents.
11-1-2020	6.	1 to 2 pm 5 to 6 pm	Privacy Qualitative Reserch
13-1-2020	7.	1 to 2 pm 5 to 6 pm	Informed Consent, Risk and Benefits, Grnetic Testing and Clinical trials.
14-1-2020	8.	1 to 2 pm 5 to 6 pm	Other Ethical Issues
15-1-2020	9.	1 to 2 pm 5 to 6 pm	Evaluating Risks and Benefits, Desired outcomes, Probabilities of harm and injury.
16-1-2020	10.	1 to 2 pm 5 to 6 pm	Identify and Distingiush risk associated with procedures
17-1-2020	11.	1 to 2 pm 5 to 6 pm	Consider the subject population.
18-1-2020	12.	1 to 2 pm 5 to 6 pm	Comparative Observational studies, Targeted Clinical investigation
20-1-2020	13.	1 to 2 pm	Biobanks and genomics research, Reserch on health and Disease.

## COURSE MANUAL CERTIFICATE COURSE Topic ORGANIC CHEMISTRY-I

YEES group of institutes has one of the best pharmacy college in Chandrapur. Also, the group has D. pharm college, Polytechnique college courses in Chandrapur dist and vicinity.

YEES provides right curriculum and innovative teaching methodologies to all its campuses. At YEES there is a series of vibrant education and leadership strategies for gaining unbeatable competitive advantage from countrywide experts for a matchless growth beyond the ordinary.

YEES extra curriculum prepares dynamic students, personally and professionally, to take up future leadership roles in a global setting.

YEES is committed to high quality education. The YEES charter of higher learning clearly states, "Impart high quality education which meets the divers needs of our students and the evolving professional requirements". To achieve this YEES ensures global standard of teaching, supported by extensive research work and a productive learning environment.

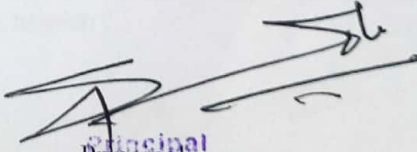

### Vision of College

Bring out best and successful pharmacy professionals to lead the pharmaceutical and health care arena with commitment and competence. It is distinctive features include high Quality Academic Environment and Result Oriented Programs and all Commitment to create centre of Excellence Quality Technique Education.

### Mission of College

Build a holistic educational institute of repute chasing excellence with commitment and hard work successfully, to create noble character in each talented student to become a winner and the institute in devoted is to the advancement of knowledge and education of students on the areas that contributes to create Educational Environmental Development Skills.

Date :- *11/02/20*

INSTITUTE CODE DTE 4643, UNIVERSITY 414 PCI 3122

**PROGRAM TITLE:** Certificate Course in Organic Chemistry-I

**Scope** This course deals with classification and nomenclature of simple organic compounds, isomerism, intermediates formed in reactions, important physical properties, reactions and methods of preparation of these compounds. The syllabus also emphasizes on mechanism and orientation of reactions.

### Objectives

Upon completion of the course the student shall be able to

#### A] Knowledge:

1. Illuminate relevance and significance of Organic Chemistry to Pharmaceutical Sciences.
2. Clarify basic principles concepts of organic chemistry
3. Explain basic functional groups and IUPAC Nomenclature of Organic Compounds.
4. Clarify Isomerism and apply that knowledge in understanding the Structure Property Relationship.
5. Clarify different reagents in Organic Reactions.
6. Explain different Reaction Intermediates and their application in reaction mechanism.
7. Explain the factors affecting strength of acid and base.
8. Comprehend and explain how Addition and Elimination Reactions are performed with respect to Alkenes and Alkynes.
9. Explain meaning of term 'Aromaticity' and different reaction involve in the formation of Aromatic compounds.

#### B] Skill:

1. Explain correct use of various equipment's and Safety measures in Pharmaceutical Chemistry Laboratory.
2. Calibration of thermometer in technically correct way and Explain the simple laboratory techniques.
3. Explain significance of qualitative Analysis of organic compounds and synthesis of derivatives.

#### Need Of The Courses

Organic chemistry is the study of the structure, properties, composition, reaction preparation of carbon containing compounds, which include not only hydrocarbon compounds with any number of other elements, including hydrogen (most compound at least one carbon-hydrogen bond), nitrogen, oxygen, halogen, phosphorus, sil sulphur. Organic compounds are all arounds us. They are central to the economic the United States in the rubber, plastics, fuel, pharmaceutical, cosmetics, detergent, dyestuff, and agrichemical industries, to name a few. The very foundations of biochemistry.

Biotechnology and medicine are built on organic compounds and their role in life processes.

Many modern high-tech materials are at least partially composed of organic compounds. Organic chemists spend much of their time creating new compounds and developing better ways of synthesizing previously known compounds.

**PROGRAM FEES:** Nil

**PROGRAM DURATION:** 30 hrs.

**PROGRAM PUBLICITY:** College Notice/ Circular

### RESPONSIBILITIES:

College will have the following role/s in relation to the project

1. Provide all content and delivery mechanisms for the said course/s it intends to offer at YEES and any other subsequent offerings that it may introduce from time to time.
2. Arrange and ensure availability of faculty to conduct face to face interactions as defined for each course, Now and in the future.
3. Give certificate/s to students who successfully complete the course as per norms.

### MODULE DESCRIPTION:

Module 1. Introduction	4hrs
Module 2. Basic Principles of Organic Chemistry	5hrs
Module 3. Classification, Nomenclature and Isomerism	5hrs
Module 4. Alkanes, Alkenes and Conjugated dienes	4hrs
Module 5. Alkyl halide, Carboxylic acids	4hrs
Module 6. Alcohols, Aliphatic amines	4hrs
Module 7. Carbonyl compounds* (Aldehydes and Ketones)	4hrs

### Registration-

We are pleased to invite Second Year.B.Pharm Students for registration.
