7.1.2 LED lights

LED lighting fixtures are more beneficial for saving energy and conserving the environment. These lighting solution helps a lot in maintain campus security, provide better quality light improving students safety , and giving facility managers a sence of peace that come with purchasing long lasting products. In our Maharashtra institute of pharmacy we use LED lights in classroom , library, corridor, entrance and also in parking zone.

Benefits of LED light in our campus are:

- 1) Energy efficiency
- 2) Improved environmental performance
- 3) No heat or UV emission.
- 4) Low voltage operation
- 5) The ability to operate in cold conditions.

Sewage treatment plant is process of purification of sewage water and reusing for gardening agriculture and other general purpose. In our Maharashtra institute of pharmacy we installed STP system for sewage of water.

Treated sewage water is purified and maintains as per the pollution control board norms. STP is the process of removing contaminants from waste water from campus.

Advantages of STP are as follows:

- 1) STP is proven technology which offers reliable performance at all time.
- 2) Sewage treatment plant preserve natural environment against pollution.
- 3) STP meets the standards for emission of pollutants set by the government and avoid heavy penalty.
- 4) Simple and easy installation, low operation and maintenance of plant.
- 5) Installation of sewage treatment plant reduces risk to public health and the environment.

Solar system decreasing environmental impact of institutes and making them greener and more ecofriendly, in our Maharashtra institutes of pharmacy be installed solar system. Solar panel in our college have many benefits. It decreasing carbon footprint also generates great deal of power. Solar system is free source of energy found in abundance through the world and advance technology and skilled installers have made it even more for reducing operating cost for the institute.

Following Benefits of solar in our Maharashtra institution:

- 1) Solar panels work well on our premises roofs.
- 2) Solar panel will reduce operating cost.
- 3) Solar power could help boost enrolment.
- 4) Solar power provides unlimited and reliable energy.
- 5) Solar arrays at colleges helps drive solar power forward.

7.1.2 First aid cum sick room

Campus gives the facilities for students when the students have sick problems.

Benefits of sick room are follows:

- 1) First aid create confidence
- 2) Preserve life
- 3) Promote recovery
- 4) Preventing further illness or injury
- 5) Promotes the sense of safety
- 6) Reliving pain
- 7) First increase safety
- 8) Positive work environment
- 9) Protect the unconscious

In our institute we arrange both generator and. The power outage could result in time and money losses for students and faculty. Sometimes important data may vanish and vital equipment could be damage. it may also be impossible to carry out some power and time best experiments during the outage or even after power restoration. They provides continue flow of power, especially since much of our daily lives revolve around electricity. Even when the power is out, we can run appliances like air conditioners, refrigerators, heaters, washers, dryer and light when we have generator.

Here are few things why backup power is imperative for educational facilities.

- 1) Class disruption and scheduling
- 2) Computer and network infrastructure
- 3) Research and experiments
- 4) Safety concerns
- 5) Automatically delivers power during a black out.
- 6) It maintains comfort.

7.1.2 Sophisticated instruments (HPLC and UV)

In our Maharashtra institute of pharmacy we provide facilities of handling of sophisticated instrument for students. Modern instruments method came to the aid of the analytical chemist by providing distinct benefits.

- 1) Time saving- analysis time has been reduced from several hours or days to even minutes
- 2) Improvement in accuracy of result by elimination of errors introduced due to personal bias.
- 3) Improvement in sensitivity leading to trace analysis.
- 4) Fast decision in case of online analysis during manufacturing operation.
